Themes and Artwork are Available to You in the Designer at No Additional Cost:

- New themes for Custom Refill Pages will launch frequently. Watch your Creative Memories Advisor and customer emails for announcements.
- You will notice each theme includes an expiration date next to its name. This is the date the theme will no longer be available. We will continue to add and remove themes to keep designs fresh over time.
- For each theme available, you will have the ability to add artwork for that theme within the Designer (you do not have to purchase the Digital Artwork separately). This includes artwork for designer papers, Fast2Fab™ designs, elements (stickers and embellishments) and mats for that collection. However, once the theme has expired, this artwork will no longer be available. You can purchase and upload Creative Memories Digital Artwork (and other artwork you own) into the Custom Refill Pages Designer as a JPG or PNG.
- All themes available at launch include Modern Moments (a new, digital-exclusive theme), Memoirs & Memories, Black & White, Flourish, Travel Log, Deep Blue Sea, Sun-Kissed, Imagine, Citrus Summer, Gather Together, Full Bloom, Simply Sunshine, Storytime Girl, Storytime Boy, Ever After, Super Duper Girl (new 12x12 size), Super Duper Boy (new 12x12 size) Season's Greetings, Essentials and Best in Show. Plus, a Full-Photo Page theme makes it easy to upload pages you have designed in your own software. You can also use the Blank Slate theme to design pages from scratch.
- If you place an order for Custom Refill Pages, you will have two years from your purchase date to order those pages again (even if the theme has expired).
- Our Designer is not a photo-storage solution. Photos are meant to be uploaded for the creation of a product and we do not guarantee photo storage.

You Can Create Pages in Your Own Software and Print Them with Creative Memories

- When using another program to design your pages, you will need 32 pages to create a 16-page pack of Custom Refill Pages (we print double-sided).
- Any pre-designed page that you upload needs to be a JPG or PNG file at 12.25" x 12.25" at 300 dpi.
- In Artisan, if you use the default 12x12 page size choice, this is actually a 12.25" x 12.25" page. This will work in our Custom Refill Pages Designer.
- To add pages that you have designed elsewhere into our Designer, you will upload these pages like you would photos.
- When you choose your theme, choose the Full-Photo Page option. This allows you to auto-build using your pre-designed pages in seconds or drag and drop your pre-made pages in each page.

Matte Finish Pages Allow You to Add Traditional Stickers, Embellishments and Journalling After Purchase

You can use Custom Refill Pages as a simple way to get your photos printed onto a page. You can add traditional stickers and embellishments to your pages once you receive them. This is the perfect way to get quick pages completed but add a personal touch, like journalling, to your pages. The beautiful matte finish of the page (the same finish as our Fast2Fab™ pages) allows for great flexibility!
