

Character-Building Ideas

Piece by Piece Mini Trio Punch Set

Here's some inspiration from our Creative Memories Product Designers on how you can layer cutouts from the three mini punches to create cute characters, animals and flowers as decorations in your 8x8 Super Duper Paper Album!

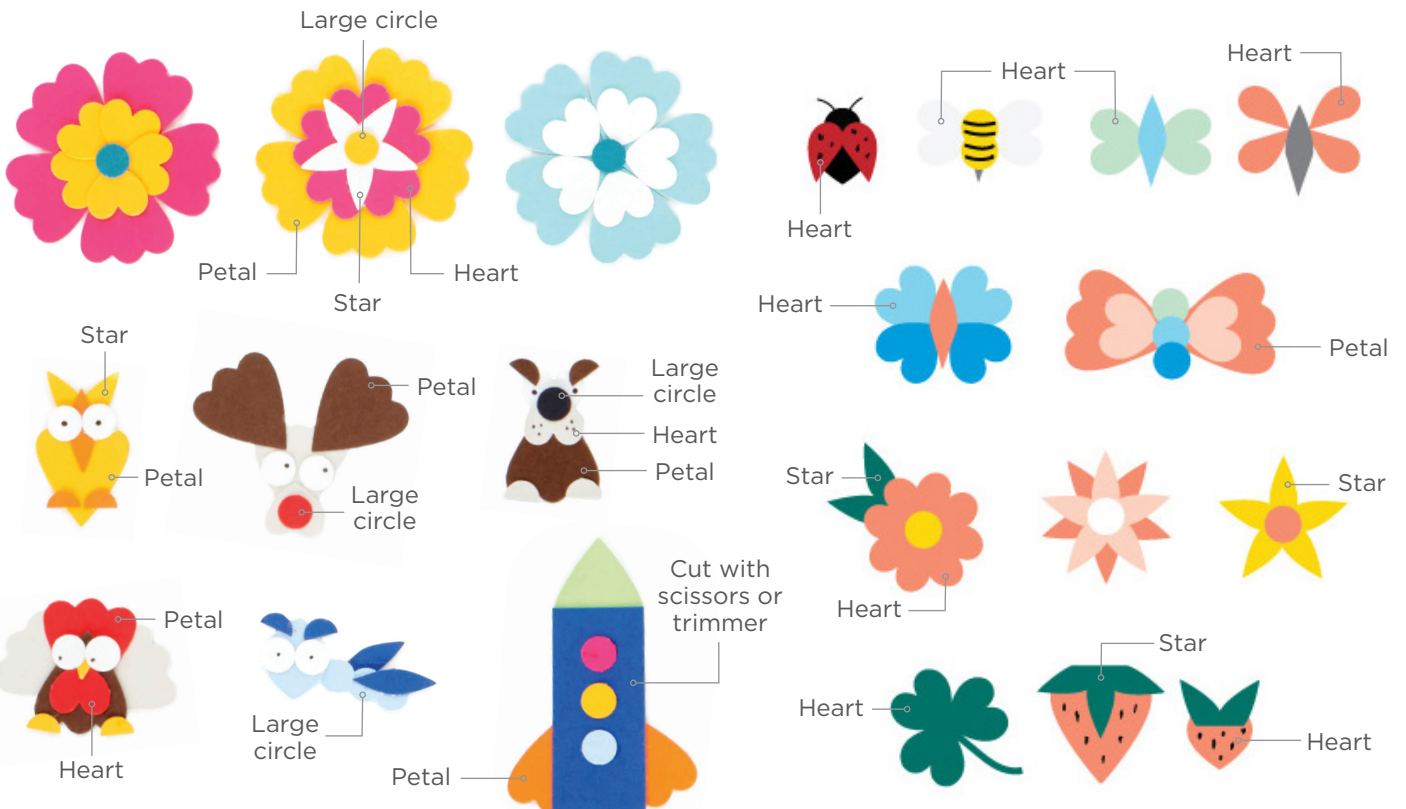

Cutout: Star

Cutout: Petal

Cutouts: Heart, Crescent moon, Large circle, Small circle

Make Your Album!

- 1 Cut your photos to the size and shapes you want with scissors. Or, try a paper trimmer with adult help!
- 2 Peel the backing off the Tape Chips included with your paper album to adhere your photo to the album page. You can add more than one photo on each page!
- 3 Punch out lots of shapes with the three mini punches in your kit. Place whichever color of cardstock you want inside the punch, then press down on the top firmly. You can use the pieces to create designs and creatures by attaching them together with the special Repositionable Tape Runner in your kit! Then attach your creations to your album pages to decorate.
- 4 You can also tell stories about your photos or write down the names of the people in the pictures. Write on the pages — not on the photos!
- 5 Finish by adding stickers onto your pages for decoration. Your album is complete!
