 Personalize your scrapbooks and make it a breeze to identify and retrieve albums from your shelf with NEW Custom Foiled Spines! Hint: they also make great gifts!

Once you choose your bookcloth and foil, you will not be able to change this choice. If you want to change your bookcloth and foil, you will need to start over.

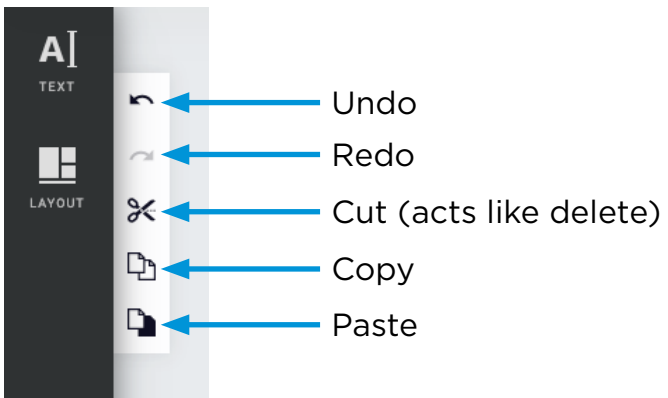

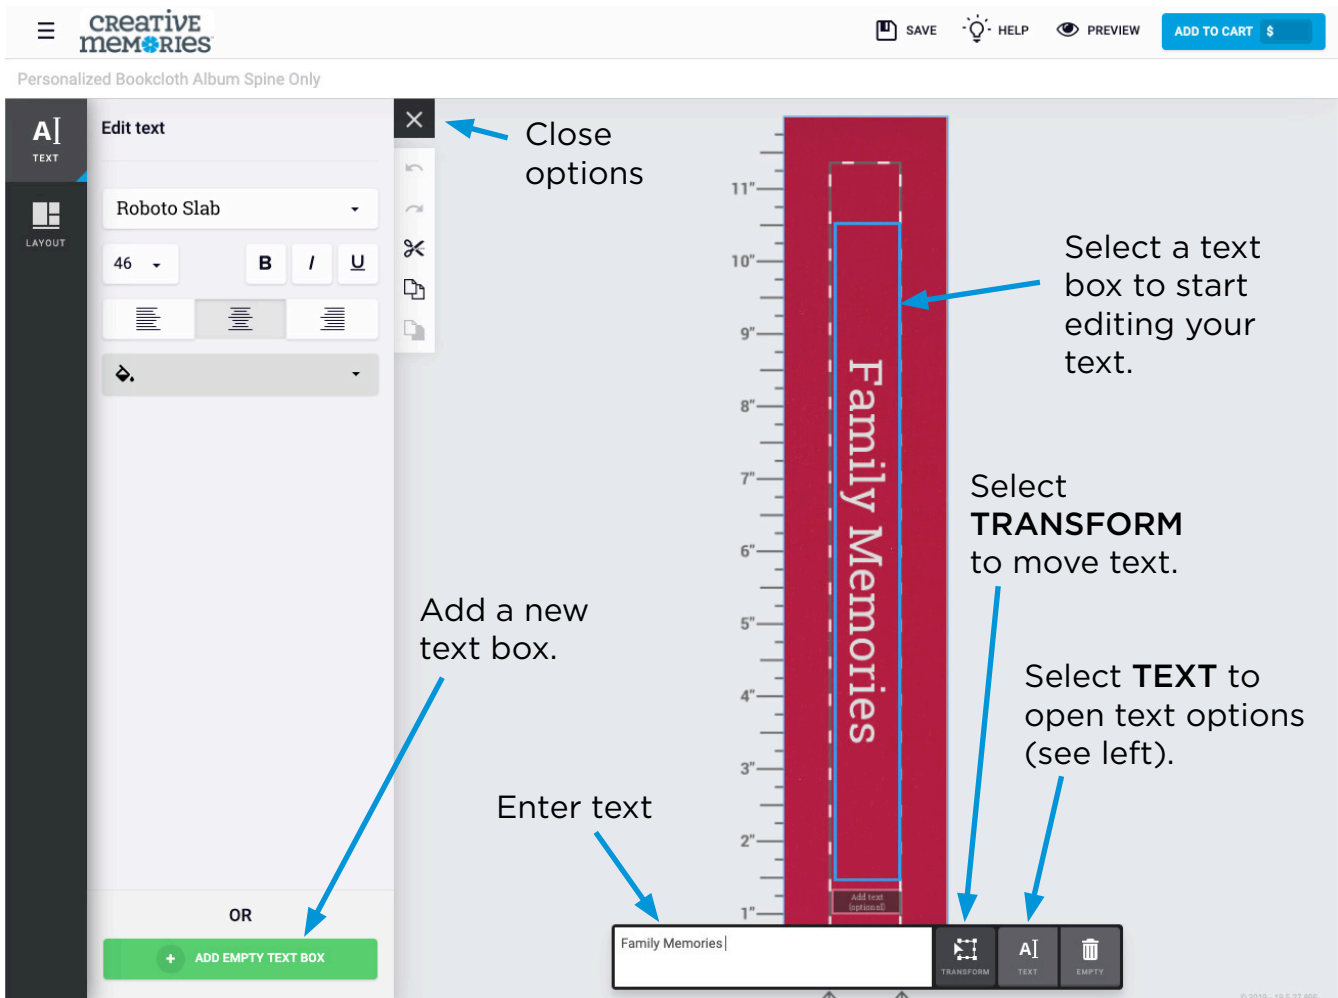

4. Give your product a name (be descriptive so that it makes sense to you later).

5. Then, create your spine by adding your own title and select the font, text size and orientation for your title. Below is an overview of the designer.

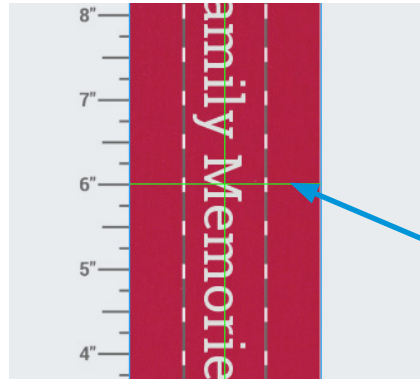

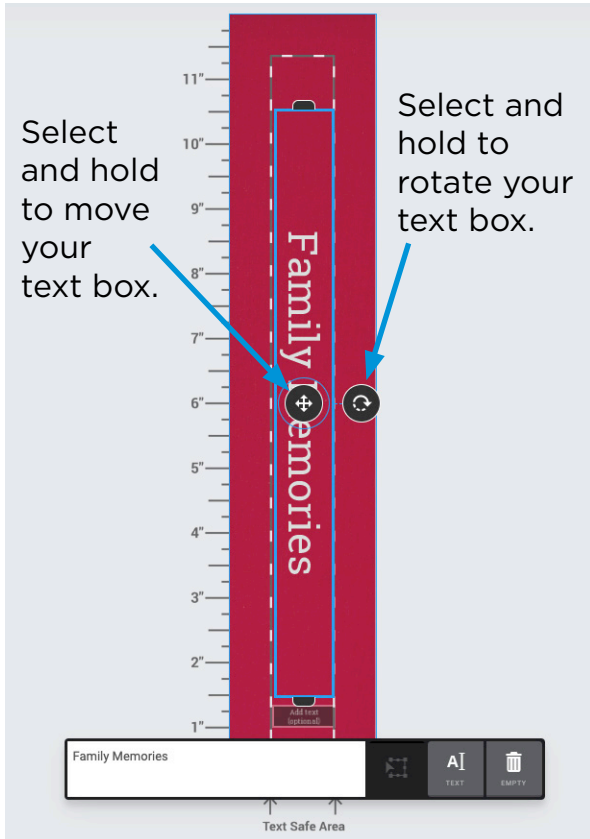

Editing Your Text: Below are the options for editing your text.

If you have text already in a text box, you can click the trash can to delete your text.

If you do not have text in a text box, click the trash can to delete the text box.

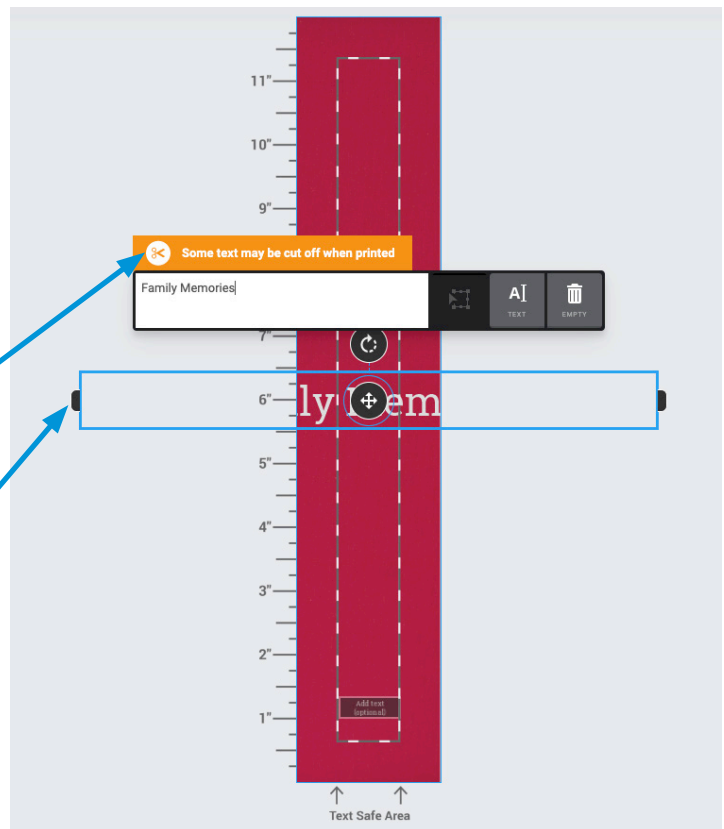

Transform (Moving Your Text Box) Tips: Once you click “Transform” you will see the options below.

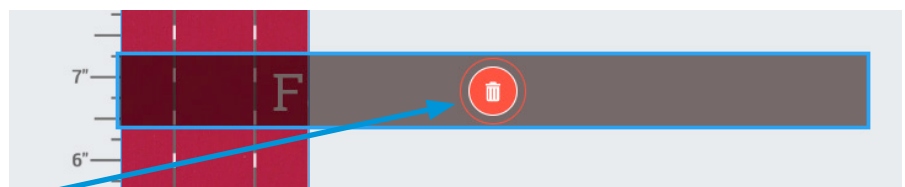

When you move your text box, green guidelines like you see here will assist you to center your text on the spine.

You will receive an orange warning if text is off the printable area. Please fix your text before proceeding or it will print as you see it.

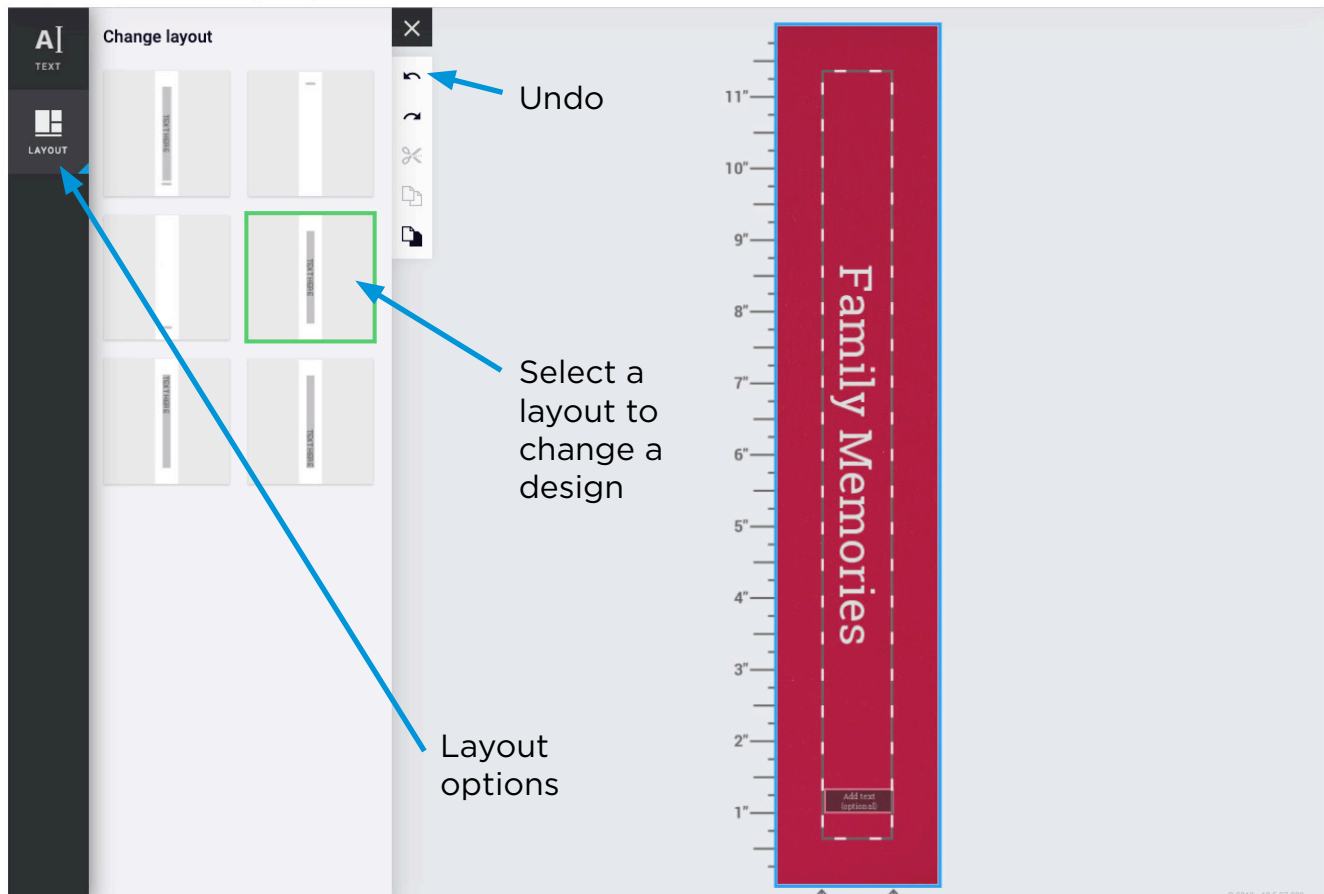

Use the black handles to resize your text box.

If you drag your text box off of the printable area, an orange trash can will appear. When you release the text box, it will delete.

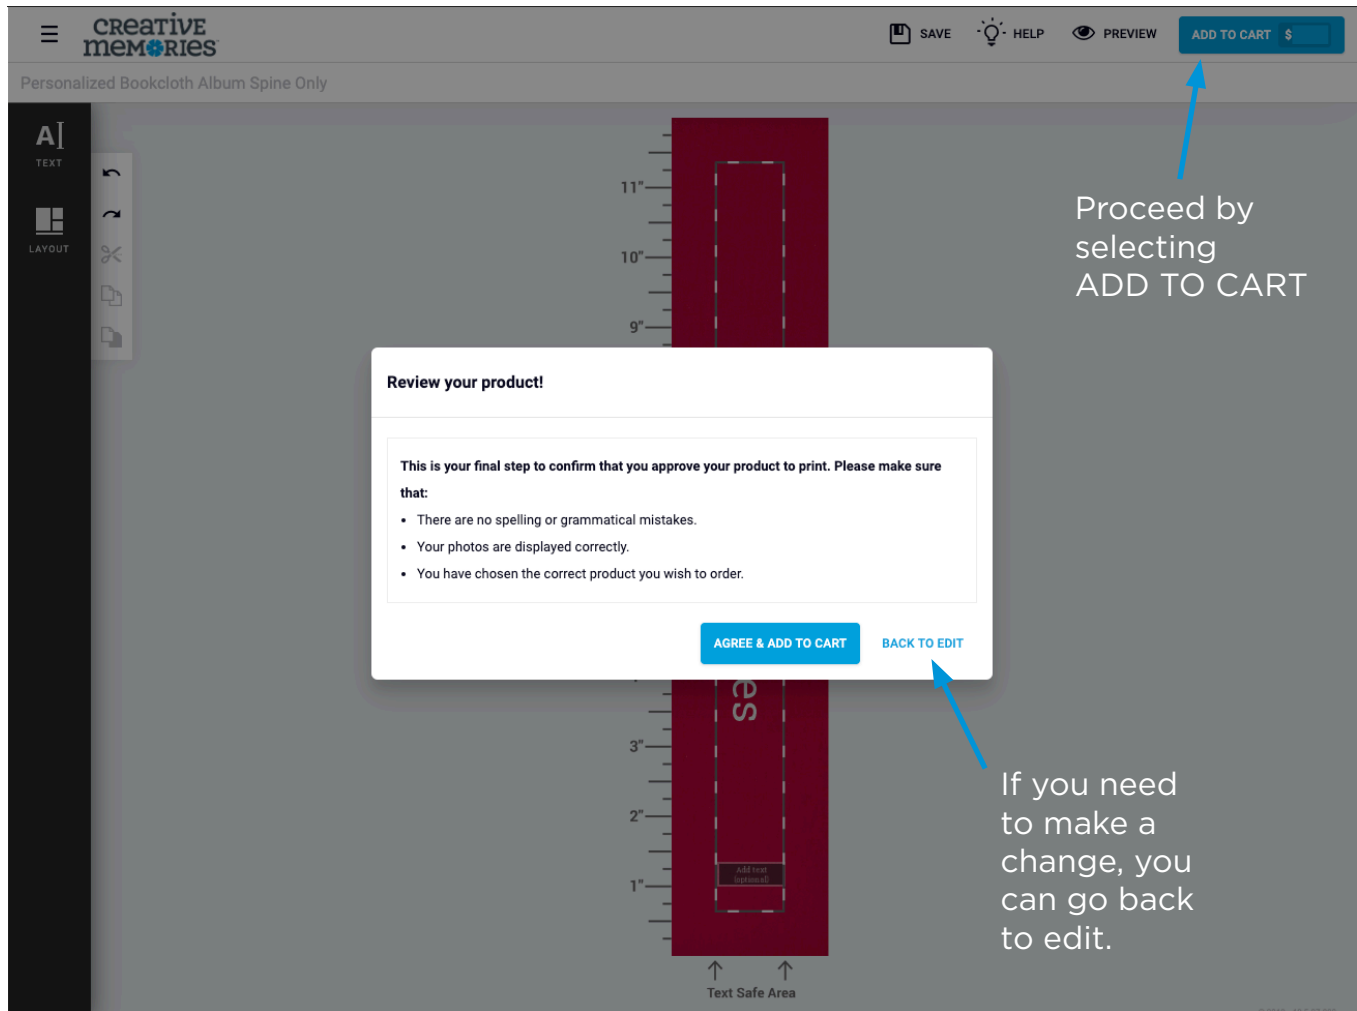

Change Your Layout Options: By selecting **LAYOUT** from the left-hand menu, you can choose from different pre-designed text layouts. Click your desired layout to replace it on your spine.

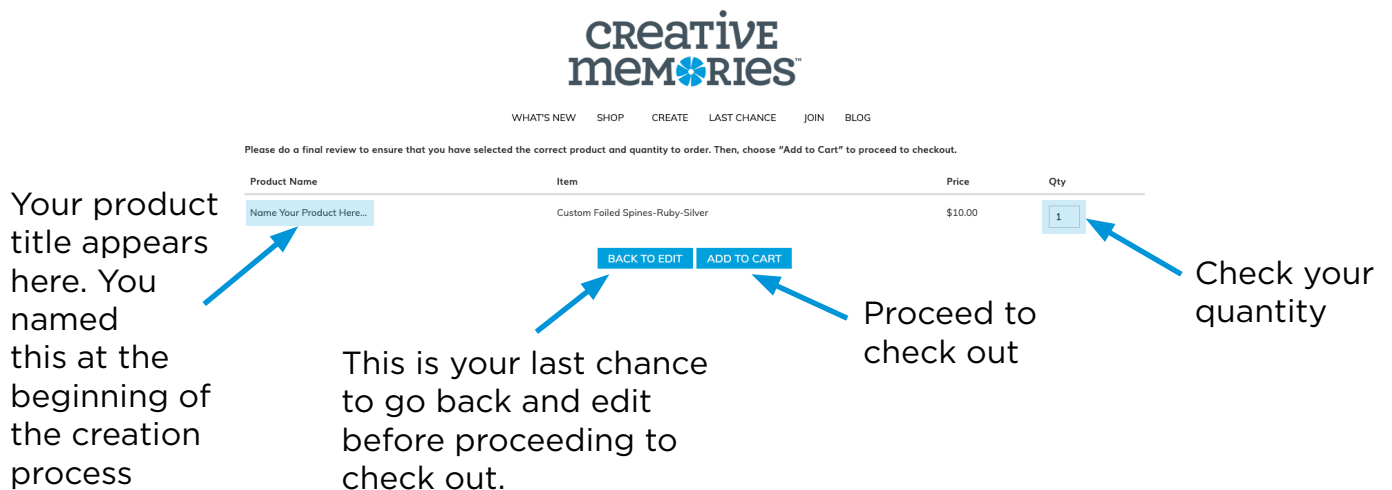

Please Note: as you try different layouts, your text will adjust. For example, if you have two text boxes on your spine and you change to use a layout with one text box, you will lose the text that was in one of your text boxes. You can hit the **UNDO** button to go back.

6. Select **ADD TO CART** to proceed to checkout.
