

# Holidays Page Kit Bundle Page Ideas

Here's some inspiration from our Creative Memories Product Designers on how you can lay out your pages depending on if you choose to use the front or the back side of the papers as the base for your layouts to suit your photos and taste. Please note that these are suggestions on how your layouts could look, and thus, show the same pages, mats and embellishments twice to give you ideas. There are not enough papers, mats and embellishments to make all these layouts, so pick the ones you love most!
