

CCS Squirrel Instructions

INGREDIENTS

- Hot Fudge, Autumn Hay Shimmer and White Solid Cardstock scraps
- Oval Custom Cutting System Patterns
- Circle Custom Cutting System Patterns
- Red, Blue and Green Custom Cutting System Cartridges
- 13x13 Custom Cutting System Mat
- 12-inch Trimmer
- 2-Way Corner Rounder
- Piece by Piece Mini Trio Punch Set
- Black Dual-Tip Pen
- Repositionable Tape Runner
- Foam Squares
- Scissors

INSTRUCTIONS

- Cut the following pieces from Hot Fudge Cardstock using the Custom Cutting System:
 - A Body:** Cut one oval using the second-largest pattern on the inside with the Red Blade.
 - D Ears/Feet:** Cut four ovals using the smallest pattern on the inside with the Blue Blade.
 - F Legs:** Cut two ovals from the smallest pattern on the inside with the Green Blade.
 - G Head:** Cut one circle from the smallest pattern on the inside with the Red Blade.
 - H Nose:** Cut one circle from the smallest pattern on the inside with the Blue Blade.
 - I Tail:** Cut one oval using the largest pattern on the inside with the Red Blade.
- For the arms, use the 12-inch Trimmer to cut two 3/4" x 2" strips from Hot Fudge Cardstock. Use the 2-Way Corner Rounder to round one end of each strip.
- For the eyes, cut two ovals from White Cardstock using the smallest pattern on the inside with the Blue Blade. Draw eyes using a Black Dual-Tip Pen.
- Cut the following pieces from Autumn Hay Shimmer Cardstock using the Custom Cutting System:
 - J Tail:** Cut one oval using the largest pattern on the inside with the Red Blade.
 - E Cheeks:** Cut two ovals using the smallest pattern on the inside with the Green Blade.
 - B Body:** Cut one oval using the second-smallest pattern on the inside with the Red Blade.
 - C Ears:** Cut two ovals using the smallest pattern on the inside with the Blue Blade.
- To make the tail, stack piece J on top of I and cut the shape using the outside of the largest oval. Using your scissors, cut the piece J into a zigzag shape on one side and add to the end of the tail. *(Please refer to the video for this technique.)*
- Assemble all pieces as shown using Foam Squares to pop up the cheeks and nose for added dimension. For the arms, mount to the back of body and fold to the front. Punch a small heart using the Piece by Piece Mini Trio Punch Set or cut a small triangle from light brown scraps for the nose and add small "teeth" from White Cardstock.
