CUTTING GUIDE INSTRUCTIONS

- Cut all 12 pieces of designer paper according to the Cutting Guide. If using a BMC for the A pieces, you'll want to punch before cutting. (Tip: After cutting, group the three different sized pieces — A's, B's and C's — together.)
- Reverse, mix and match the paper pieces to create any or all of the eight suggested layouts, or create your own designs to complete all pages in the album. Note that you will be able to make the eight layouts **twice**. You will use all the cut pieces.
- Adhere paper pieces directly to the page with Tape Runner. Mount photos on top of paper pieces with the Tape Runner.
- Apply stickers or embellishments using Foam Squares to add dimension.
- Journal as desired with a Dual-Tip Pen.

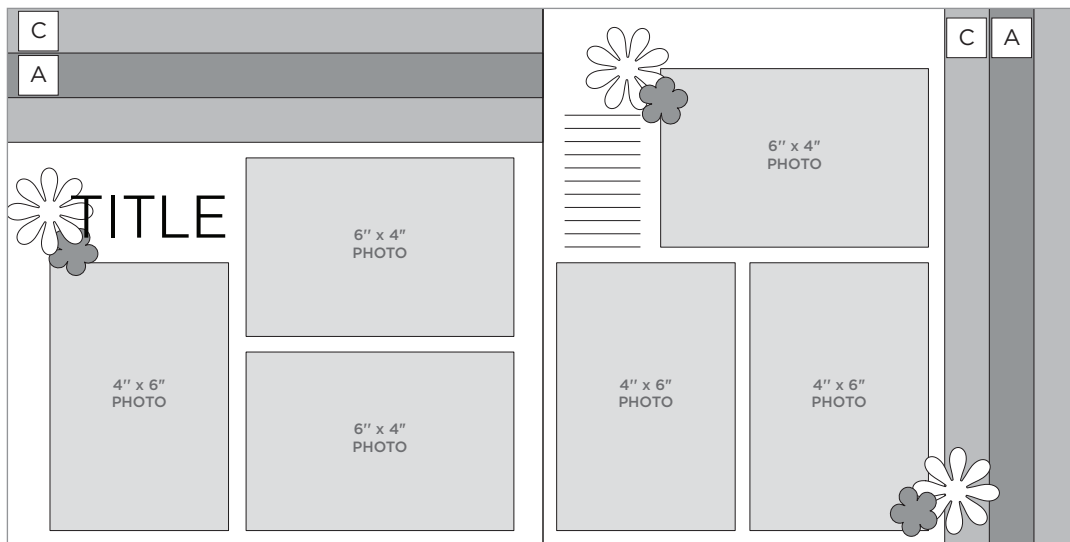

BONUS IDEAS

- Rearrange paper pieces and vary the photo sizes to suit your theme or taste.
- Use additional designer paper or cardstock as base pages for more color, pattern and visual interest.
- Use 4" x 6" or 4" x 4" Peekaboo Pockets™ to add even more photos to your layouts.
- Use the Original Border Maker System and a chain-style Border Maker Cartridge of your choice to punch two borders before cutting the remaining 2" x 12" and 3" x 12" strips from each paper.
- Use the Original Border Maker System and an edge-style Border Maker Cartridge of your choice to punch the edge of the 3" x 12" strips.
- Add border stickers or laser-cut borders along the edges or over the seams between paper pieces.
- Use the 2-Way Corner Rounder to round or notch the corners of paper pieces and photos for a more decorative look.
- Use additional coordinating cardstock, designer or tone-on-tone papers as base pages or to mat photos if desired.
