## CUTTING GUIDE INSTRUCTIONS

- Cut all 12 pieces of designer paper according to the Cutting Guide. (*Tip: After cutting, group pieces that are the same size together.*)
- Mix, match and layer the 8" x 4" and 8" x 2" paper pieces and follow along to create any or all of the six two-page layouts. Repeat, rotate or flip the sketches, or create your own designs to complete all pages in the album.
- Use the 4" x 6" paper pieces to mat photos cropped to 3-3/4" x 5-3/4".
- Cut 4" x 6" paper pieces in half to use as mats with smaller 2-3/4" x 3-3/4" photos.
- Use 4" x 4" photos without mats as shown in Sketch 6 to fill up space on page after placing 8" x 4" strips. (*Tip: Use any leftover 4" x 6" photo mats with Peekaboo Pockets™ as journal spots or for punching shapes for additional embellishments.*)
- Apply stickers using Foam Squares to add dimension.
- Adhere photos and journal as desired.

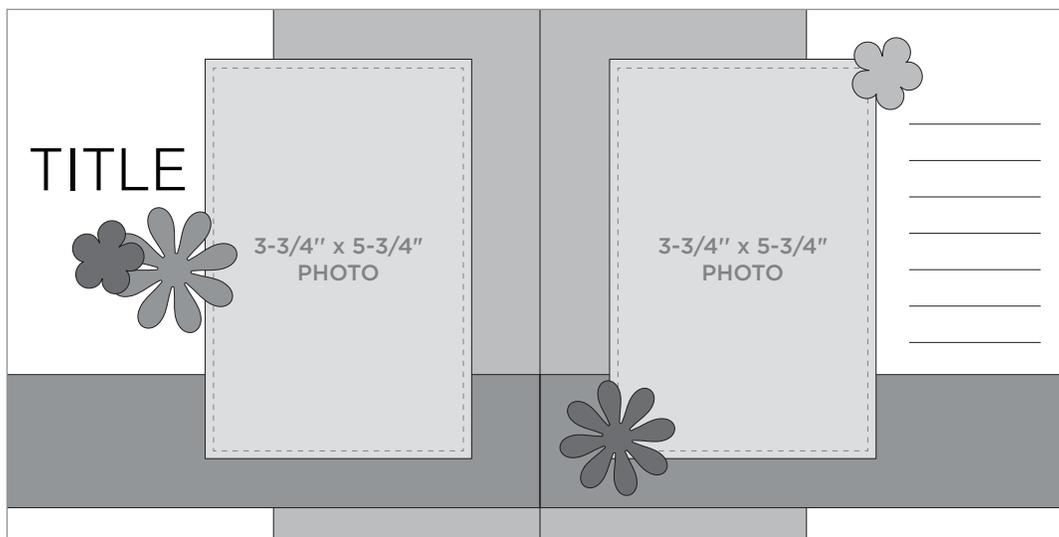

## BONUS IDEAS

- Border stickers look great when they overlap the seam between two paper pieces.
- Use Original Border Maker System and edge-style Border Maker Cartridge of choice to punch a decorative edge along one edge of 8" x 4" strips.
- Use 2-Way Corner Rounder to round or notch the corners of paper pieces and photos for a more decorative look.
- Use Peekaboo Pockets™ to add even more photos to your layouts.
- Add coordinating cardstock, designer or tone-on-tone paper pieces to cover any "white space" on your pages if desired.
